4. walking on the ground
5. releases horrible odour

SECTION B

B(i)

Sewage and wastewater

Marine dumping

Industrial waste

Radioactive waste

Oil pollution

*B(ii)***Suggested Answer**Section B (ii)

* Good morning teachers and friends. Today, I would like to give a speech about Ways to Reduce Water Pollution.

There are several ways to reduce water pollution. First, we must dispose waste properly. We cannot throw rubbish into the river. Then, we must not flush rubbish into toilet bowls too. We must also take great care not to overuse pesticides and fertilisers. We must also help clean-up litter in water-filled areas.

Take care of the water. With that, I thank you.

SECTION CQuestion 1

One night, Pak Udin's house was on fire. Luckily, he was awoken by the smell of smoke. He woke his family members up. Pak Udin and his family quickly left their house. They shouted for help.

His neighbours came to help to put out the fire. They A young man telephoned the fire station. Soon, the firefighters arrived at the scene. They extinguished the fire. After twenty minutes, they managed to put the fire.

Pak Udin was relieved. Although many things were burnt, nobody was hurt. He thanked his neighbours for the hands they lent. He also thanked the firefighters.

Question 2

Last night, Azim was studying in his room. Out of the blue, he saw a suspicious man. The man tried to break into Azim's neighbour's house. His neighbour was not home.

He quickly called the police station. He told the police officer what he saw. He also gave the house address to the police officer.

Not long after that, two police officers arrived. The burglar tried to run away. They quickly arrested him. They took him to the police station.

Soon, his neighbour returned home. One of the police officers told him what happened. He thanked Azim. He was proud of Azim's good deed.
